FARM LANDS for SALE.—The ILLINOIS CENTRAL RAILROAD COMPANY is now properled to

TWO MILLION OF ACRES FARMING LANDS,

FARMING LANDS, INTEREST.

INTEREST OF FORTY ACRES AND UPWARD.

LONG CREDITS

1.0 W RATES OF INTEREST.

These hands were granted by the Government to aid in the construction of this Railroad, and inclinde some of the richest and most fertile Frairies in the State, interspersed hers and there with magnificent groves of oak and other timber. The Road extends from Chicago on the north-east to Caro at the south and from themes to Gaican and Dunieth, in the north-west extreme of the State; and as all the lands he within fifteen milits on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points, and from theme to Eastern and Southern ourselves. Moreover, the rayid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home domand for farm produces.

The soil is a dark, rich modd, from one to five fact in depth, is gently soiling, and peculiarly fixed for granting Cattle and Sheep or the the cultivation of Whees. Indian Corn. e.c.

Economy in enlivating and great productiveness are the well-known characteristics of linets lands. Trees are not required to be cut down, stumps grubbed, or shous pixed off, as is generally the case in cultivating new land in the soiler States. The first crop of indian Corn. planted on the nowity-braken said. The first crop of indian Corn. planted on the nowity-braken said. The first crop of indian Corn. planted on the nowity-braken said. The first crop of indian Corn. planted on the nowity-braken said. The first crop of indian Corn. planted on the nowity-braken said. The first can be made for brooking ready for corn or wheat, at from \$2.10 have been considered to the newly turned sod is enter to visid very large grofits. A man with a plow and two yoke of orea will break one and a half to two acres pet day. Contracts can be made for brooking ready for corn or wheat, at from \$2.10 have to the brooking ready for corn or wheat, a

date of contract, and the others annually thereafter. The last payment will become due at the and of the sixth year from the date of the centract.

INTEREST WILL BE CHARGED AT ONLY THREE PER CENT, PER ANNUM.

As a security to the performance of the centract, the first two years interest must be paid in advance, and it must be under stood that at least one tenth of the land purchased shall yearly be brought under cultivation. Longer credits, at 6 per cent per annum, may be negotiated by special application. Twenty per cent from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

Ready framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one living and three bed-rooms, and will cost complete set up on ground chosen any where along the Road, \$150 in cash, canciusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply these purchasing the Company's lands with fencing materials, arrendom looks, and an outli of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest, charged for those lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent better all the purchase many becomes due. In the mean time, the rapid settlement of the constrive will probably have increased their value four or the fold. When required an experienced person will accompany applicants, to give information and aid in selecting lands.

A NEW LIGHT.-KEROSENE, or COAL

A NEW LIGHT.—KEROSENE, or COAL and Coll.—Secured by Patents. The intensity of the light obtained from this oil will be found to exceed that of any other oil or liquid heretofore knews to the public.

This Oil being a pure distillation from coal, grishout the admixture of spirits of Turpeotine or alreadd, is warranted to be not explosive. Insurance Companies allow it to be not explosive. Insurance Companies allow it to be not without additional premium.

Those who read or write much at night will find it a great acquision, as the light is remarkably steady and soft to the eye.

For General ramity use, burning in Steamboats, Singping, Railroad Cars, Churches, Factories, Hotels and Light Houses, this Oil is as yet unequaled.

It burns brilliantly without smeking or crusting the wick—does not deteriorate or evaporate by exposure, and is not affected by the collect weather.

The various patented Lampe to be found at the Store of the undersitued, are recommended as the best alapted to the peculiar qualities of the Oil, each 'samp giving a light equal to two eas foot case burners.
